

## Second Generation Hubbard To Take The Wheel

John Hubbard started Hubbard Heating and Plumbing, Inc. in 1971. In 1992, his son, Chad Hubbard, came to work for him full time, and has been learning the ropes of running a successful heating and plumbing business since then. He currently serves as the Vice-President of the company, in charge of scheduling and programming of work, in addition to being one of our lead installers and technicians. Over the next few years, Chad will be taking on more and more responsibility, and 6 years from now, John will hand the company over, and be officially retired. Through this whole process, our customers can rest assured that they will continue to receive the same attention to detail and customer service that they have come to expect from Hubbard Heating and Plumbing.

Chad, of course, grew up in Interlaken, and graduated from South Seneca High School. He then attended SUNY Morrisville. He is a NYS DEC Certified Pump Installer, and an EPA Certified Air Conditioning Technician. Chad is also certified by both Rheem and Trane for the installation and service of their residential furnaces and air conditioners. Chad, his wife Denley, and their three daughters, Katie, Julia, and Anneliese, still live right here in Interlaken, where he is a member of the fire department and a paramedic.

8396 Main Street Interlaken, NY 14847
